EDUCATION

SRM University AP, Amaravati, Andhra Pradesh

Aug 2023 – May 2027

B.Tech in Computer Science and Engineering

CGPA: 6.9/10

Relevant Coursework: DSA, OOP, DBMS, OS, Computer Networks, Software Engineering, AWS Cloud Computing, Web Penetration Testing, Cryptography, Compiler Design.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, SQL

Web Technologies: HTML5, CSS3, React.js, REST APIs

Databases: MySQL, SQLite, DynamoDB

Cloud & Tools: AWS (IAM, Lambda, SNS, SES, S3, API Gateway, CloudWatch, Bedrock, Cognito), Git, GitHub, Kali Linux

PROJECTS

Product Manual & Knowledge Base Chatbot (AWS Cloud & GenAI)

AWS Cloud

- Developed a **Retrieval-Augmented Generation (RAG)** chatbot using **Amazon Bedrock** and **OpenSearch Serverless** for precise troubleshooting from manuals.
- Engineered a **serverless ingestion pipeline** using **S3, Lambda, and Textract** to automate OCR and metadata-driven document chunking.
- Implemented **RBAC via Cognito groups** to restrict sensitive procedures based on worker seniority.
- Integrated **Amazon Polly and Translate** to deliver multilingual audio responses for industrial accessibility.
- Designed an automated **Gap Detection system** using **DynamoDB and SNS** to alert admins of unresolved documentation gaps.

SecureFile: Hybrid Cryptographic Vault

Python, AES-256

- Built a secure encryption system using **AES-256-GCM** for data and **ASCON-128** for metadata protection.
- Developed a secure recovery workflow using **RSA-3072** challenge-response authentication.
- Conducted security testing including **brute-force** and **metadata forgery** attack simulations.

Campus Dining System

MERN Stack

- Developed a full-stack campus dining platform using **React.js, Node.js, Express.js, and MongoDB**.
- Implemented **Google OAuth authentication** with **Role-Based Access Control** (Student, Vendor, Admin, Support).
- Built a **Budget Planner** to recommend meal combinations within user-defined budget constraints.
- Integrated **Redis caching** and an **Anomaly Tripwire system** to improve performance and prevent review abuse.

PROFESSIONAL EXPERIENCE

Salesforce

Jun 2024 – Aug 2024

Software Engineering Intern (Remote)

- Built scalable full-stack application using **React.js and Python** to automate business workflows.
- Designed secure **REST APIs** and optimized **SQL queries** for improved performance.
- Developed responsive UI components following **Agile sprint methodologies**.

CERTIFICATIONS

- AWS Certified Cloud Practitioner**
- Cyber Security Mentorship Program** – Launched Global & BTech Walleh (2025)
- Salesforce Internship Completion Certificate** (2024)
- SAP Certified – SAP Generative AI Developer**
